

MEGHDAD JAFARI

JUNIOR BACKEND DEVELOPER
(C#/.NET) — INTERNSHIP APPLICANT
BACKEND & CLOUD

ABOUT ME

C#/.NET backend student at Handelsakademin, building practical fullstack projects with ASP.NET Core, React, and PostgreSQL. Seeking LIA internship for Autumn 2026 where I can contribute to real development and keep growing.

SKILLS

Backend • C# / .NET • Object-Oriented Programming (OOP) • ASP.NET Core Web API • REST API Design • Dependency Injection • Service Layer Pattern • Swagger / API-dokumentation	WEB & FRONTEND • JavaScript • HTML / CSS • API-integration (fetch / REST) • React • Vite
DATA • SQL & Relational Databases • Entity Framework Core • Data Modeling • JSON Data Handling	TOOLS & METHODOLOGY • Git & GitHub • Version Control • Debugging & Troubleshooting • Clean Code Principles • Teamwork & Communication
Auth & Security • JWT Authentication	DEPLOYMENT & CLOUD • Vercel • Coolify • Render • Supabase • Railway

PROJECTS

LIAHUB — ASP.NET CORE WEB API + REACT

- Fullstack job matching platform that fetches LIA listings from Arbetsförmedlingen's API and ranks them by tech stack match
- Background service syncs listings every 6 hours, Google OAuth via Supabase, PostgreSQL database
- Full application tracker with status tracking and manual entry support
- Deployed on Railway (backend) and Vercel (frontend)
Live: liahub.meghdadjafari.dev
Git-Hub: github.com/Megjafari/liahub-backend

PROXMOXDASH — ASP.NET CORE WEB API + REACT

- Self-hosted dashboard for Proxmox homelabs with real-time monitoring of nodes, VMs and LXC containers
- Start/stop/restart controls and a built-in SSH web terminal accessible directly in the browser
- SignalR for real-time data, JWT authentication, Dockerized and deployed via Coolify with Cloudflare Tunnel
Git-Hub: github.com/Megjafari/ProxmoxDash

DEBUGGED API — ASP.NET CORE WEB API

- Bug knowledge base API that archives resolved issues and surfaces similar past solutions when a new bug is logged
- Built with Clean Architecture and CQRS via MediatR, FluentValidation, and role-based access control
- JWT authentication, Entity Framework Core, PostgreSQL, Dockerized
- Endpoints for fetching similar issues, managing projects and issues per role
Git-Hub: github.com/Megjafari/debugged-api

KAIZEN — ASP.NET CORE WEB API + REACT

- Fullstack fitness tracking PWA built as a solo school project, graded VG (highest grade)
- Workout logging, weight history tracking, and progress monitoring over time
- Auth0 authentication, PWA support for installability, deployed on Railway and Vercel
Live: kaizen.meghdadjafari.dev
Git-Hub: github.com/Megjafari/kaizen-API

EDUCATION

[2025 - Present] —→ NBI/HANDELSAKADEMIN

[2018 - 2021] —→ WASASKOLANGYMNASIUM

WORK EXPERIENCE

SHIFT LEADER - MAX BURGERS [2021 - 2026]

- Led teams in a fast-paced environment with responsibility for quality, efficiency, and delivery
- Worked systematically with problem-solving and workflow improvements
- Developed leadership, communication, and deadline management skills

SUPPORT WORKER- NYTIDA [2018 - 2021]

- Worked independently with high responsibility and accurate documentation
- Coordinated communication between stakeholders and teams
- Developed strong structure, communication, and accountability
